Professional profile

Junior Full Stack Developer focused on MEAN/MERN, backend with Node.js and Express, API integration and process automation. Experience building real products and prototypes with AI, including biometric flows with external SDKs, experimental Forex trading bot and intelligent reading of PDFs for legislative processes.

Experience

- Inadaptados — Technical Training Program

Aguascalientes, Mexico | 2025 – present

Improvement in Full Stack development (MEAN/MERN), scalable architecture and good development practices.

- Informatic-Help-Agency — Process Automation

Aguascalientes, Mexico | 2024 – present

Automation of internal processes with n8n, reducing manual tasks and improving operational response times.

Development of a mobile application for employee records using biometrics, integrating the IDENTITY.IO SDK for identity validation.

Development of an e-commerce website with frontend and backend architecture for real operations.

Projects

- E-commerce Informatic-Help-Agency

E-commerce platform with frontend and backend to centralize catalog, commercial operation and service flows.

- IDENTITY.IO

Implementation of digital identity flows, biometric validation and attendance control through integration with SDKs and APIs.

- Moodle-AI Bridge

Experimental automation of academic events with Node.js, scripts, and PM2 for persistent execution.

- AI

AI Prototyping: Forex trading bot and reading legislative PDFs to extract and organize information.

Education

Technological Institute of Aguascalientes — Information and Communications Technology Engineering (ongoing, since 2023)

Fullstack Course — Inadaptados Completed; Final project

PROTON International Certification

Abilities

- Web Development: HTML, CSS, JavaScript, Node.js, Express, Angular, React, MongoDB, Git, GitHub.
- DevOps and tools: Docker, Render, Postman, PM2, VS Code, Android Studio.
- Automation: n8n, Node.js scripts, PM2 flows.
- Generative AI: Codex, ChatGPT, Gemini, Google Antigravity, Claude; reading PDFs with AI and code review support.
Integrations: REST APIS, IDENTITY.IO SDK, reading and extracting information from PDFs.
- **Methodologies:** Scrum, Git Flow

Languages

Spanish (native), English (B2)
